

Curriculum Vitae for Dr. Lamyia Al-Haj

Associate Professor – Biology Department
College of Science – Sultan Qaboos University

I. Personal Information:

Full Name	LAMYA ADNAN AL-HAJ	
Employment ID	6827	
Marital Status	Married with 3 children	
Current Positions	Associate Professor of Structural and Molecular Biology Course Coordinator BIOL2101	
Major	Molecular Biology	
Specialization	Genetic Engineering of Microalga / Biofuel Production	
Email	lamya@squ.edu.om	
Postal Address	P.O. Box 36, PC 123 Al-Khoudh, Muscat, Oman	
Full profile & activities	www.lamyialhaj.com	

II. Education and Employment Information

A. Qualifications

Qualification	Year	Major	Institution/Country	Thesis/Project Title
PhD	2014	Structural and Molecular Biology	University College London (UCL), London, UK	Development of genetic engineering tools for the cyanobacterium <i>Synechocystis</i> PCC 6803 for advanced biofuel production.
MSC	2006	Science & Technology/ Environmental Science with Distinction	University of New South Wales, Sydney, Australia	Course based
BSc	2004	Biotechnology cGPA 3.73	Sultan Qaboos University (SQU), Oman	Survey of soil cyanobacteria and their relationship to nitrogen fixation with special reference to irrigated soils

B. First Employment at SQU

Job Title	Joining Date	SQU Unit
Demonstrator	September 5 th , 2004	Biology Department, College of Science

C. Academic Positions

Job Title	Period	SQU Unit
Lecturer	2006 – 2010	Biology Department, College of Science
Assistant Professor	2014 - 2019	Biology Department, College of Science
Associate Professor	2019 - Present	Biology Department, College of Science

D. Administrative Positions

Job Title	Period	SQU Unit
Coordinator of BIOL2101	2018 – Present	College of Science

III. Awards and Achievements

A. INTERNATIONAL AWARDS

S.N.	Award/Achievement	Awarding Body	Date	Comments
1	Study UK Alumni Awards	UK embassy and British Council	22ed February 2022	Science and sustainability award
2	Recipient of the prestigious “ Young Global Leader ” award	World Economic Forum – Switzerland	11 th March 2020	Most prestigious leadership award for youth, in recognition of my advancement to science, youth support initiatives, social work and commitment to the society
3	Selected as a Member of “ The World Academy of Science ” TWAS	UNESCO	2019-2023	Only 5 researchers from all developing countries are annually awarded this fellowship in recognition of outstanding research at a young age.
4	Recipient of the prestigious “ L’Oreal UNESCO Award for Woman in Science Middle East Fellowship, 2018 ”	L’Oréal foundation in association with UNESCO – France	28 th November, 2018	Recognition to significant contribution to science & actively promoting it in the Middle East. Received swiping media coverage locally & globally
5	Recipient of “ The Boban Markovic Prize in Environmental Science ”	University of New South Wales (UNSW), Australia	2007	In honor of achieving the highest graduating grade across all departments of the faculty of Science at UNSW
6	Featured in a book 100 successful Omani Woman	Germany via German author Kathleen Nejad	2021	Presence publications
7	TAS ICON Award	Arabian Stories Thearabianstroi es.com	2021	For establishing the honorable lady of Oman Sayyida Ahad bint Abdullah Al Busaidi foundation “Ahad Foundation”
8	Best paper award	Organizing committee of ICREGA’2016 conference Belfort - France	February 8-10 th 2016	Best paper in the 3 rd International Conference on Renewable Energy: Generation & Application “ICREGA 2016” conference for research on renewable energy
9	Best paper award	Dubai, UAE	30 th -31 st , December 2016	Best presented paper in the 8 th International Conference on Chemical, Agricultural,

				Biological and Environmental Sciences (CABES)
10	Recipient of <i>Biotechnology YES</i> (Young Entrepreneur Scheme) competition	BBSRC, London UK	2011	Awarded £1000 for our team coming in 2 nd place out of 72 teams across the UK in the nationwide Innovation in Biotechnology Competition
11	Best Research Poster Competition	University College London, UK	2011	Received a monetary prize for winning the “Best Research Poster Competition” organized by the graduate school at UCL
12	Winner of TEyD; Tell Everyone Your Dissertation competition	University College London, UK	2011	Received a monetary prize for winning in the sharing science competition organized by UCL Public Engagement Unit
13	Winner of “Strictly Come Science” Competition	University College London, UK	2010	Received a monetary prize for winning the science competition in the Institute of Structural & Molecular Biology symposium at UCL
14	Awarded several travel grants	UCL Graduate School & Society of General Microbiology - UK	Between 2010- 2014	Awarded ~ £2200 in support for presenting my research in China, Canada, Germany and Poland.

B. SULTAN QABOOS UNIVERSITY & NATIONAL AWARDS AND RECOGNITIONS

S.N.	Award/Achievement	Awarding Body	Date	Comments
1	<i>Sayyida Ahd bint Abdullah Al Busaidi Award on Omani woman's day</i>	Oman's honorable Sayyida Ahd Abdullah Al Busaidi	17.10.2020	For outstanding academic, research and community service performance
2	<i>The National Research Award 2019</i>	The Research Council	2019	For the scientific contribution in the field of renewable energy, namely, the production of biodiesel from waste date seeds
3	<i>The National Research Award 2018</i>	The Research Council	December 4 th , 2018	For the scientific contribution in the field of renewable energy, namely, the production of biodiesel from waste date seeds
4	<i>Distinguished academic award for the year 2020</i>	Sultan Qaboos University	May 5 th , 2020	For outstanding teaching performance, students satisfaction and enhancement of teaching and learning methods

5	<i>Sultan Qaboos University's Award for Outstanding Scientific Contribution Locally and Internationally 2019</i>	Sultan Qaboos University	May 2 nd , 2019	On University day 2019, I was honored for my outstanding scientific contribution and the awards I received both Nationally and Internationally
6	Recognized & featured in 10 th grade English textbooks as part of the taught curriculum	Ministry of Education Oman	September 2019	My biography is taught as part of the government school curriculum in recognition of my active roles in research and academia
7	<i>Al Mar'a Excellence Award - 2019</i>	Apexmedia	March 14 th , 2019	In honor of my contribution to science in the category of Innovation and Technology based on nominations
8	Occidental Oman –Gulf Intelligence PhD student's award	Occidental Oman in association with Gulf Intelligence UAE	October 18 th , 2016	As a young scientists in the field of STEM who promotes postgraduate education in Oman. I was also the only female winner in a field of research where females are reported to be underrepresented worldwide
9	Award of Academic Excellence	Sultan Qaboos University	Summer of 2003	For top academic achievers in SQU the award was a fully funded 5* leisure trip to the Netherlands
10	Full PhD Scholarship	Sultan Qaboos University	2010 - 2014	To study PhD in Molecular Biology at the University College London, UK.
11	Full MSc Scholarship	Sultan Qaboos University	2005 - 2006	To study MSc in Environmental Technology in Environmental Science at the University of New South Wales, Sydney, Australia
12	BSc in Biotechnology with a grade of "Honors"	Sultan Qaboos University	1999 - 2004	For a GPA of 3.73 out of 4
13	SQU-VC Annual awards for students with academic distinction	Sultan Qaboos University	Each of the years 2000 - 2003 inclusive	High academic achievement each year during BSc

C. SERVING ON NATIONAL AND INTERNATIONAL BOARDS

1	The Arab Gulf States Institute in Washington (AGSIW)	Board of Directors Washington USA	2020 – present
2	International College of Engineering & Management	Chair of Board of Trustees - Oman	2020-2022 2 Years
3	Renaissance Services L.L.C	Director – Oman	2022 – present
4	Our Planet International School	Board of Governance Oman	2020 - present
5	Ministry of social development	Advisory board - Oman	2020- present

D. PRIVATE CONSULTANCY, COACHING AND FACILITATION

Founder of “*Coach for Change*”. A Muscat-Based Consultancy firm helping organizations through workshops on personal effectiveness, employee engagement, talent management, change management, communication, team collaboration, business improvement techniques, strategy development, and building winning cultures to enable greatness in people and improve organization’s capability based on a foundation of best practices. Dr. AL Haj has worked alongside & supported CEOs, government and business leaders, Boards around the country via numerus workshops. www.cfc.om .

1. Teaching and Learning

1.1 Contribution to Quality University Teaching and Learning

1.1.1 Courses Taught

S.N.	Course Code	Course title	Role in course	Course level
1	BIOL2101	General Biology 1	Teaching and significant course development	Foundation Course
2	BIOL2102	General Biology 2	Teaching and running labs	Level 2 Course
3	BIOL6208	Experimental Techniques	Course creation and teaching	MSc Level Course
4	BIOL1003	Genetics in our life	Course creation and teaching	University Elective
5	SCIE3010	Lab safety and management	Course creation and teaching	College Elective
6	BIOL4600	Biofuels	Course creation and teaching	Level 3 Course Department Elective

1.1.2 Student Evaluation (Mean score out of 4)

Course Code	Year / Semester	Overall, this instructor is a good teacher	Summary: Overall Score	Number of Students	Average Grade Point		
					Course	Department	College
BIOL2101	15 SP	3.64	3.55	49	3.23	3.28	3.23
BIOL2101	15 FL	3.77	3.61	38	3.28	3.28	3.23
BIOL2101	16 SP	3.96	3.81	37	3.24	3.35	3.27
SCIE3010	16 SP	4.00	3.94	5	3.74	3.71	3.27
BIOL2101	16 FL	3.86	3.68	50	3.36	3.32	3.23
SCIE3010	17 SP	3.63	3.50	35	3.00	2.97	3.21
BIOL2101	17 FL	3.89	3.80	48	3.57	3.35	3.25
BIOL2101	18 SP	3.91	3.84	56	3.49	3.37	3.30
SCIE3010	18 SP	3.77	3.56	30	3.35	3.27	3.30
BIOL2101	18 FL	3.97	3.85	102	3.67	3.49	3.30

BIOL2101	19 SP	3.86	3.68	95	3.51	3.42	3.27
----------	-------	------	------	----	------	------	------

1.1.3 Course Coordination and Co-examination

Course Code	Year / Semester	Number of Sections	Total Number of Students	Role
BIOL2101	18 FL	6	271	Coordinator
	19 SP	6	313	
	19 FL	6	300	
	16 SU	1	46	

1.1.4 Graduation Projects

S.N.	Student Name & ID	Project Title	Academic Year/ Semester	Acquired grade by evaluators	Role
1	Mohammed Al Murr Al Salmi (ID:97506)	Isolation, growth optimization & characterization of locally isolated <i>Dunaliella salina</i> and its ability to produce β -carotene	2016/2017	A-	Supervisor
2	Marwa Salim Al Anqudi (ID:110972)	Optimizing the growth of microalgae <i>Dunaliella</i> and <i>Spirulina</i> for the production of commercial microalgal products	2018/2019	A-	
3	Mariya Rashid Al Kalbani (ID:112817)	Utilization of date palm pits for production of biodiesel as a clean, sustainable and commercial resource for Oman	2018/ 2019	A-	
4	Rehab Nasser Al-Zidi (ID:120398)	Production of Biopolymer from Date Seed Oil Using <i>Cupriavidus necator</i>	2019/2020	A -	
5	Sharifa Al Masqari (ID:116056)	Exploring the potential of bioethanol production as a potential biofuel product from date pits waste material	2019/2020	B+	
6	Maan Al Salami	Enhancing the extraction of oil from discarded 'date pits' for biodiesel utilization	Fall 2022	A-	
7	Yaqeen Al Balushi (ID:124301)	Glycerol derivatives as fuel additives: Reaction of glycerol with acetone for solketal production in heterogeneous catalyst zeolites	Fall 2022		
8	Maya Al Hajri (ID:122715)	Production of biodiesel from local waste cooking oil	Fall 2022	B+	
9	Nabras Almashiky (ID: 123290)	Optimal utilization of date palm seed for the manufacture of bioethanol	2022- 2023		

		using a strain of <i>Saccharomyces cerevisiae</i>			Supervisor
10	Naama Al Harthy (ID:124607)	Production of Biopolymers from Date Seed Oil Using RZS1 <i>Pseudomonas</i> species from Date Seed Oil	2022- 2023		
11	Khair Al Katheri (ID:128428)	In progress	Spring 2023		
12	Isra Al Hosni (ID: 122386)	In progress	Spring 2023		
13	Mohamed Al Mayahi (ID:124645)	In progress	Spring 2023		

1.1.5 Academic Advising

Cohort	Major/Pre-Major	Year / Semester	Number of Advisee
2014*	Major	FL/14	1
		FL/15	5
		SP/15	1
		FL/16	40
		SP/16	24
		FL/17	43
		SP/17	44
		FL/18	39
		SP/18	42
		SP/19	40
			Total grand

* In addition to the above, since I served as a special advisor (college probation supervisory committee since 2017), I have been advising a large number of students from different cohorts and majors, especially late students and students on probation.

1.2 Active Participation in Developing / Reviewing Programs and University Teaching and Learning Processes

1.2.1 Innovative approaches to improve independent/collaborative learning processes

Initiative	Comments
Introduced active learning and VR technology in teaching	This team driven transformation that I led as course coordinator for BIOL2101, was conducted through the Scaled Agile framework of project management (under guidance of Dr. Nidhal Al Lawati - Physics department). The course development targeted the development of critical thinking, problem-solving, collaboration and communication skills, through a more student-interactive learning methodology that involved creating and implementing interactive context-rich worksheets, open book quizzes and what we called “Bio’s got talent” skill- based project. Additionally, <u>virtual reality technology</u> was introduced in teaching & learning where I personally secured the external funds from Oman Authority for Partnership for Development to purchase virtual reality (VR) glasses in order to introduce VR technology in our biology classrooms for the first time in history of biology teaching in the department in line with the department’s vision to prepare future-facing students. The feedback from the HoD & students was phenomenal as they witnessed how the dynamics of the teaching & learning was significantly enhanced to be more fit for teaching in the 21 st century. The change was implemented in a very short span of time (1 year)

1.2.2 Developed instructional materials

S.N.	Course Code and Name	Materials Developed	Comments
1	BIOL2101/ General Biology 1	Completely revised lecture notes & created 2 versions of each lecture slides (staff + student versions)	A version was prepared for the use of the academic staff during the lecture while the other version for students had less content in order for students to learn/practice note taking skills.
		Bio's got Talent	This 3 month skills based project enhanced team work, communication & collaboration skills as well creativity & sparked a lot of enthusiasm and excitement in the course.
		Learning outcomes completely revised & modified	Learning outcomes for each lecture were completely revised in order to align with the course new aim in developing skills of the 21 st century for the students.
		Introduced worksheets for first time in BIOL2101 Labs	Context Rich worksheets were introduced for the first time in the laboratory component of the course to enhance critical thinking, collaboration & communication skills as the students worked in pairs to solve the addressed problem/challenge.
		Fun facts	Scientific fun facts were introduced at the end of each lecture in the entire course to attract students to science.
		Animations and clips	Carefully selected animations and clips were introduced and shared with the students to ease the learning process.
		Open book quizzes	Introduced to students for the first time to practice the skill of fact finding from open resources.
		Lab report	Skills of scientific report writing
	Virtual reality (VR technology)	Introduced and practiced the use of VR technology in teaching in the labs (The only course in the university that uses VR technology regularly in teaching)	
2	BIOL6208/ Experimental Techniques	Lecture Notes in a Presentation Format (Slides)	This MSc course contained both theory and practical components that were both developed & taught by me as part of a multi-instructor course for MSc students. (50% development and teaching)
3	SCIE3010/ Lab safety and management	Lecture Notes in a Presentation Format (Slides)	This course is in collaboration with both Chemistry and Physics department and I was responsible for both creating the biology course theory and practical content for the course and teaching it. (35% Development and Teaching)
4	BIOL1003/ Genetics in our life	Lecture Notes in a Presentation Format (transparencies)	This university elective was taught in Arabic to reach out to all SQU students to introduce them to the basics of genetics and how it effects our daily lives. I created & taught 50% of the content.
5	BIOL4600 Biofuels	Lecture Notes in a Presentation Format (Slides) , debates and mini projects " <i>Step Out of Your Comfort Zone</i> "	This courses introduced the students on how to discuss and defend since using debates skills and the mini project called "step out of your comfort zone" pushed students to take up projects that challenged there daily encounters

1.3 Demonstration of the Quality Developed / Reviewed Academic Programs and Other University Teaching and Learning Processes

1.3.1 Awards for University Teaching and Learning

Award	Awarding Body	Date	Comments
<i>The Boban Markovic Prize in Environmental Science</i>	University of New South Wales, Australia	2007	In honor of achieving the highest graduating grade across all departments of the faculty of Science with both Distinction and Honor (86% compared to a 75% for the previous award winner)
<i>Distinguished academic award for the year 2020</i>	Sultan Qaboos University	May 5 th , 2020	For outstanding teaching performance, student's satisfaction and enhancement of teaching and learning methods

1.3.2 Students Direct Feedback on Teaching & Learning

Students have expressed overwhelmingly positive reviews and feedback on the quality of teaching and advising I have offered over the years and have expressed it privately via emails, messages, handwritten letters, cards of thanks and over social media platforms. Many have expressed how my teaching methods has made them take up biology as a specialization and how the lectures inspired them to love science and learning in general.

1.4 Subscription to University Teaching and Learning Professional Societies and Attending Professional Meetings

1.4.1 Professional Events Attended

S.N.	Event	Date and Place
1	Harvard Kennedy School Executive Education <i>"Global Leadership and public Policy for the 21st Century"</i>	March 30 th , 2022 – April 7 th , 2022 Boston – USA Scholarship from the World Economic Forum (WEF)
2	Workshop by Centre for Excellence in Teaching & Learning (CETL) entitled <i>"Using Technology to Engage Students in Deeper Learning at SQU"</i>	25 th December, 2017 CETL SQU, Oman
3	Workshop on <i>"Developing both Assessment Tools & Rubrics"</i>	12 th November, 2015. Centre for Excellence in Teaching & Learning (CETL), SQU, Oman
4	Workshop on <i>"Innovation and Entrepreneurship"</i>	14 th to 16 th December, 2015. Academic Innovation Assistance Program (AIAP), SQU, Oman
5	Participated in the National Training Program in Biotechnology	7 th -11 th May 2005, SQU, Oman
6	Participated in an "Instructional Skills Development Program"	13 th Feb - 3 rd April, 2005, Oman

1.4.2 Oral and Poster Presentations within University Teaching and Learning at Scientific / Professional Events

S.N.	Presentation Title	Type	Event	Date and Place
1	<i>"The Future of Higher Education In The Age of Artificial Intelligence"</i>	Keynote speaker	Artificial Intelligence Conference	August 1 st , 2018. Salalah- Oman Regency Hall

				Link to evidence
2	“The Role of Universities in Generating Technology-based Startups”	Invited speaker	Symposium	17 th February, 2016. AIAP SQU Oman
3	“Life in the UK and studying at UCL” describing living & learning at UCL	Invited speaker	Privet event organized by University College London (UCL) & Omani Embassy in UK for 60 Omani student delegation at UCL	2012 Invite by UCL Head of International Office, University College London, London, UK
4	“UCL CEPMaBC; Be a Polymath”	Mentor for public engagement event	Teaching Engagement Event	2012, Chemistry Department University College London, London, UK
5	"Bite Size Lunch Hour Lecture”	Invited speaker	Series of lectures for Public Engagement in an effort to communicate science to the general public	2011, University College London, London, UK

1.5 University/ National Recognition in University Teaching and Learning in the Field of Specialization

1.5.1 Membership of University Teaching and Learning Committees

S.N.	Committee	Academic Year	Role	Level
1	Student Project Evaluation	2015-2016 2014-2015	Chair	Departmental
2	College Probation Supervisory Committee	2017/2018 2018/2019	Member	College
3	Staff-Student Liaison Committee	2018-2019 2017-2018 2016-2017 2015-2016 2014-2015	Chair	Departmental and College

1.6 Leading Scholarly Work in University Teaching and Learning

1.6.1 Organization of Workshops and Events at SQU

S.N.	Event	Date	Role
1	Conducted a series of lectures on Biofuels at SQU via the Independent Learning Center (iLC)	7 th – 19 th Jan, 2017	Lectures design and delivery Link to evidence
2	Delivered a workshop via the Independent Learning Center (iLC) entitled “Algae Biofuels: Current Scenarios, Challenges & Future Prospective”	21 st – 22 nd February 2016	Workshop design and delivery Link to evidence

3	“The Science Olympics” - Qatar	20 th March 2015	Contributed with 50 written short/medium answer biology questions For the Science Olympics.
4	Organized a visit for primary students from TLC privet school to the physics department at SQU to learn about the concept of "Light" run in collaboration with the Physics department.	14 th October 2015	Organizer
5	Organized a visit for upper primary students from TLC privet school to the physics department at SQU to learn about the concept of "Light, reflection and refraction".	11 th , November 2015	Organizer

2. Scholarship

2.1 Peer Reviewed Scholarly Work

2.1.1 Peer Reviewed Journal Publications (Top 5 publications P2, P4, P5, P6 and P11)

S.N.	Paper Listed According To Year of Publication	Contribution
P1	Al-Haj, LA (2012). Biofuels from microorganisms. <i>Asia-Pacific Biotech News</i> 16: 30-33	First and Corresponding Author ✓ Article write up and correspondence
P2	Hellier P, Al-Haj LA , Talibi M, Purton S, Ladommatos N (2013). Combustion and emissions characterization of terpenes with a view to their biological production in cyanobacteria. <i>Fuel</i> . 111, 670-688.	Second Author ✓ Experimental work ✓ Paper write up ✓ Paper revision and corrections
P3	LA Al-Haj (2014). Development of genetic engineering tools for the cyanobacterium <i>Synechocystis</i> PCC 6803 for advanced biofuel production. University College London (University of London).	PhD Thesis ✓ Experimental work ✓ Thesis write up and publishing
P4	Farrukh Jamil, Ala'a H. Al-Muhtaseb, Lamya Al-Haj , Mohab A. Al-Hinai, Paul Hellier, Umer Rashid (2016). Optimization of oil extraction from waste "Date pits" for biodiesel production. <i>Energy Conversion and Management</i> , 117 264-272.	Third Author ✓ Experimental work co-supervision ✓ Collaboration with UCL for combustion analysis ✓ Paper write up
P5	L Al-Haj* , YT Lui, RMM Abed, MA Gomaa, S Purton (2016). Cyanobacteria as chassis for industrial biotechnology: progress and prospects. <i>Life</i> 6 (4), 42	First and Corresponding Author ✓ Full paper write up

P6	H Ala'a, F Jamil, L Al-Haj , MA Al-Hinai, M Baawain, MTZ Myint, D Rooney (2016). Efficient utilization of waste date pits for the synthesis of green diesel and jet fuel fractions. <i>Energy Conversion and Management</i> 127, 226-232.	Second Author <ul style="list-style-type: none"> ✓ Co supervised experimental work ✓ Assistance in paper write up and corrections
P7	MA Gomaa, L Al-Haj , RMM Abed (2016). Metabolic engineering of cyanobacteria and microalgae for enhanced production of biofuels and high-value products. <i>Journal of Applied Microbiology</i> . 121 (4): 919-31	Second Author <ul style="list-style-type: none"> ✓ Paper structure and design ✓ Paper write up supervision
P8	Ahmad M Abu-Jrai, Farrukh Jamil, H Ala'a, Mahad Baawain, Lamya Al-Haj , Mohab Al-Hinai, volMohammed Al-Abri, Sikander Rafiq (2017). Valorization of waste Date pits biomass for biodiesel production in presence of green carbon catalyst. <i>Energy Conversion and Management</i> 135, 236-243.	Fifth Author <ul style="list-style-type: none"> ✓ Assistance in paper write up and corrections
P9	F Jamil, H Ala'a, L Al-Haj , MA Al-Hinai, M Baawain (2017). 2.1.2 Conference papers

S.N.	Authorship & Paper Title	Conference Title	Date and place
P1	Farrukh Jamil, Ala'a H. Al-Muhtaseb, Lamy Al-Haj, Mohab A. Al Hinai, Mahad Baawain. Phoenix dactylifera kernel oil used as potential source for synthesizing jet fuel and green diesel.	2 nd International Conference on Advances on Clean Energy Research.	ICACER 7-9 April 2017. Belin Germany
P2	Farrukh Jamil, AH Muhtaseb, M Baawain, L AL-Haj , M Al-Hinai. Utilization of waste date pits for biodiesel production in presence of green catalyst.	4 th International Conference on Energy and Environment Research	2017 Dubai UAE
P3	F Jamil, H Ala'a, L Al-Haj , MA AlHinai, M Baawain, G Murshid. Clean Fuel Production from Waste Date Pits.,	ICTEA: International Conference on Thermal Engineering	February, 2017 SQU Oman
P4	Farrukh Jamil, Ala'a Al-Muhtaseb, Lamy Al Haj , Mohab Al-Hinai. Parametric study of oil extraction from phoenix dactylifera kernal (date seed) as green energy source.	4th International Conference on Renewable Energy: Generation and Applications.	8th -10th Feb 2016. Belfort France
P5	Synthesis of High Value Fuel Fractions from Waste Date Seed Oil	8 th International Conference on Chemical, Agricultural, Biological and Environmental Sciences (CABES)	30th -31st, December 2016 Dubai UAE

2.1.3 Technical Reports

S.N	Report	Type	Year
1	Production of high Value Products and Advanced Biofuels by Genetically Engineering The Cyanobacterium <i>Synechocystis</i> sp. PCC 6803	Internal grant report	2016
2	Production of high Value Products and Advanced Biofuels by Genetically Engineering The Cyanobacterium <i>Synechocystis</i> sp. PCC 6803	Internal grant report	2017
3	Biofuel Production From Renewable Resources in Oman Based on a Bio-refinery Concept	TRC progress report	2017
4	Bioprospecting of microalgae & cyanobacteria from extreme habitats for novel compounds of commercial interest	SQU-South Africa progress report	2018
5	Bioprospecting of microalgae & cyanobacteria from extreme habitats for novel compounds of commercial interest	SQU-South Africa progress report	2020

2.1.4 Book Chapter

Chapter	Contribution as
H Ala'a, Farrukh Jamil, Lamya Al Haj , Eyas Mahmoud, Mohamed Becherif, Umer Rashid, Sikander Rafiq, AE Atabani, Gopalakrishnan Kumar (2019). Valorization of Waste Date Seeds for Green Carbon Catalysts and Biodiesel Synthesis. Sustainable Agriculture Reviews 34, 105-123 Springer, Cham.	Assistant Professor

2.1.5 Invited Talks

A. International Conferences and Symposiums

S.N.	Talk Title	Event	Date & Place	Comments
1	“Transitioning to a green Middle East”	Davos annual meeting 2022 World Summit (World Economic Forum)	May 25 th 2022 Davos Switzerland	Most prestigious leadership platform in the world. Presented alongside global leaders
2	National Workforce development: Conversation with GCC leaders	Harvard Business School conference CROSSROADS GCC FUTURE IMPACT FORUM 2022	14-15 th September 2022 Museum of the Future Dubai - UAE	I was invited alongside GCC leaders to speak about the perspective of GCC national workforce development
3	Research and develop in the Arab World	Popular science	On Line Invite from UAE (popular science Arabia)	Spoke about the status of Research and development in the middle east
4	“ <i>Woman Education in STEM</i> ”	Harvard Business School conference entitled “ <i>4th annual HBS crossroads conference</i> ”	April 25 th , 2016 Dubai UAE	First Omani to be an invited speaker at the “ Harvard Business School crossroad conference ” to discuss “ <i>Woman Education in STEM</i> ”. A very prestigious invitation & successful talk that lead to a lot of networking. My international participation on this very prestigious platform gained a lot of national attention and was covered extensively in the national media. Link to Evidence Link to Evidence 2
5	Microalgal biofuel production: Fact of Fiction?	"Rendez-Vous de Concarneau: Where Industry Meets Science in Marine Biotechnology"	October 9 th – 10 th , 2014, Concarneau, France	The presentation was highly appreciated and received a lot of positive feedback that I was asked for an extensive interview and was featured on the front page of the French newspaper the next morning. I discussed the current and future plans SQU/Oman has for establishing biofuels in the region. The interview was a success and was followed by a second

				interview that was published in French magazine the same week.
6	Exploring the Potentials of Local Microalgae Strains for Biofuels and High Value Products's of Commercial Interest	KISR regional work shop on Microalgae applications	12 th -13 th November 2018 Kuwait	A chance to present amongst the gurus of biofuel and High Value Products in the world like “Los Alamos” from USA.
7	Bioprospecting of microalgae & cyanobacteria from extreme habitats for novel compounds of commercial interest	Talk to staff and post graduates	15 th July, 2018 Durban University of Technology, Durban, South Africa	Well received talk with interactive Q&A sessions
8	Micro-algae biofuel and bioproducts: “The way towards a clean, renewable energy and a sustainable environment	“Energy, Water and Food Security”	December 12 th - 13 th , 2014. Beirut- Lebanon	Well received talk with interactive Q&A sessions

B. National Conferences, Symposiums and Seminars

S.N.	Talk Title	Event	Date & Place
1	تجربتي مع البحث العلمي – My research experience	UNESCO - اللجنة الوطنية للثقافة والعلوم	11 th February 2019 Cultural hall in Grand Mosque – Muscat
2	“Research - To commercialize or not to commercialize that is the question”	College seminar - open to public	7 th March 2019 SQU –Lecture Theater 2 Link to evidence
3	Potentials of Algae Biofuels in Oman	be'ah Biofuels workshop	May 10 th 2018. Hormuz Hotel – Oman
4	“The Role of Universities in Generating Technology-based Startups” organized by.	Symposium	Organized by AIAP at SQU on 17 th February, 2016
5	Keynote Speaker “Renewal Energy with specific attention to Biofuels and its future in the gulf region”	First National Symposium on Emerging Trends in Engineering & Management	February 10 th –13 th , 2013 Walljat College Link to evidence

6	"The Potential of Biofuels As a Renewable Energy Resource"	Environmental Symposium on Renewable Energy Resources	Organized by Ministry of Environment & Climatic Affairs, Golden Tulip, 14 th March 2008
7	"The Potential of Second Generation Biofuels in Oman"	Biotechnology Symposium	22 -23 April 2008. SQU, Oman

2.1.6 SQU Internal Grants

S.N.	Project Title	Allocated Budget	Role	Year
1	Production of High Value Products and Advanced Biofuels by Genetically Engineering The Cyanobacterium <i>Synechocystis</i> sp. PCC 6803.	R.O. 7,000	Principal Investigator	2016
2	Enhancing Biofuel-Production by a Novel Strain of Clostridia Isolated from Omani Desert Soil Crust	R.O. 10,000	Principal Investigator	2017

2.1.7 External Grants

S.N.	Project Title	Allocated Budget	Role	Year & Awarding body
1	Utilization of Palm Tree Waste for The Production of Second Generation Biofuels as a Clean Sustainable & Commercial Energy Resource for Oman	R.O. 150,000	Principal Investigator (project leader)	2018 – Petroleum Development of Oman (PDO) PDO Contract Link 1 PDO Contract Link 2
2	Biofuel Production From Renewable Resources in Oman Based on a Bio-refinery Concept	R.O. 285,200	Co-Investigator	2015 – The Research Council (TRC)
3	Bioprospecting of Microalga and Cyanobacteria From Extreme Habitats For Novel Compounds Of Commercial Interest	R.O. 8,000	Collaborative grant	2018/2019 SQU-South Africa

2.2 Demonstration of Quality Scholarly Achievements

2.2.1 Citations and H-index

Total Citations	H-index	i10-index / RG Score	Source	Profile

2.2.3 Awards for Scholarly Achievements

S.N.	Award	Awarding Body	Date	Comments
1	Recipient of the prestigious " Young Global Leader " award	World Economic Forum – Switzerland	11 th March 2020	Most prestigious leadership award for youth, in recognition of my advancement to science, youth support initiatives, social work and commitment to the society
2	Selected as a Member of " The World Academy of Science " TWAS	UNESCO	2019-2023	Only 5 researchers from all developing countries are annually awarded this fellowship in recognition of outstanding research at a young age.
3	Recipient of the prestigious " L'Oreal UNESCO Award for Woman in Science Middle East Fellowship, 2018 "	L'Oréal foundation in association with UNESCO – France	28 th of November 2018	The award is highly competitive and as a winner I received Euro 20,000 in recognition for promoting science in the Middle East. I also receive vast coverage from national & international media which resulted in further discussions about my research specifically & importance of research in general in many media platforms both nationally & globally (TV, Radio, Magazines, Newspapers & all social media platforms in both Arabic and English). I was also invited to speak in a lengthy discussion live "on air" with "Mont Calro International

				Radio” that has a follower’s database of ~7 million across the world which was a perfect platform to highlight the status, progress and development of R&D in Oman & SQU specifically Award link
4	<i>The National Research Awards 2018</i>	The Research Council	December 4 th , 2018	For the scientific contribution in the file of renewable energy, namely, the production of biodiesel from waste date seeds
5	SQU Certificate for Recipients of International and Regional Awards	Sultan Qaboos University	May 2, 2019	On the 19 th University Day in recognition of winning the “L’Oréal UNESCO for the significant contribution to Science & actively promoting it both nationally & internationally along with other local research awards (e.g The National Research Award 2019) Award Link
6	“Distinguished Academic Award” for the year 2020	Sultan Qaboos University	May 5th, 2020	For outstanding teaching performance, students satisfaction and enhancement of teaching and learning methods
7	Al Mar'a Excellence Award - 2019	Apexmedia	March 14 th , 2019	In honor of my contribution to science in the category of Innovation and Technology based on nominations Award Link
8	<i>Occidental Oman – Gulf Intelligence Award</i>	Occidental - Oman in association with Gulf Intelligence - UAE	October 18 th , 2016	As a young scientists in the field of STEM who promoted postgraduate research & education in Oman. I was also the only female winner in a field of research where females are reported to be underrepresented worldwide Award Link
9	Best Paper Award	Organizing committee of ICREGA '2016 conference Belfort - France	February 8-10 th 2016	Best paper in the 3rd International Conference on Renewable Energy: Generation & Application “ICREGA 2016” conference for research on renewable energy (Refer to Attachment Sch 2.1.2A)
10	Best paper award	Dubai, UAE	30 th -31 st , December 2016	Best presented paper in the 8 th International Conference on Chemical, Agricultural, Biological and Environmental Sciences (CABES) (Refer to Attachment Sch 2.1.2B)
11	Best Research Poster Competition	University College London, UK	2011	Received a monetary prize for winning the “Best Research Poster Competition” organized by the graduate school at UCL (Refer to Attachment TL 1.4.2A)

2.3 Subscription to Professional Societies and Attending Professional Meetings

2.3.1 Oral and Poster Presentations at Scientific / Professional Events

S.N.	Presentation Title	Event	Date and Place	Type
1	Engineering a platform for photosynthetic terpene production in cyanobacteria using <i>Synechocystis</i> 6803 as the model organism	5 th International Conference on Algal Biomass, Biofuels and Bioproducts	7 th -10 th Jun, 2015 San Diego, USA	International Oral Presentation
2	Engineering a platform for photosynthetic terpene production in cyanobacteria using <i>Synechocystis</i> 6803 as the model organism	Algal Biomass, Biofuels and Bioproducts	Jun 16 th -19 th , 2013, Toronto, Canada	
3	Genetic engineering of Cyanobacteria for biofuel production	BIT's 1st Annual International congress of Marine Alga	September 20 th – 23rd, 2012, Dalian, China	
4	Utilizing genetic engineering tools for the production of Geraniol and Farnesene in <i>Synechocystis</i> 6803	Molecular Bioenergetics of Cyanobacteria: Shaping the Environment	April 15 th - 20 th , 2013, Pultusk, Poland	International Poster Presentation
5	Development of Advanced Genetic Engineering Tools for The Cyanobacterium <i>Synechocystis</i> sp. PCC6803	Biofuels (C3)	March 1 st - 6 th , 2011. Swissotel the Stamford, Singapore	
6	Participated with a presentation on my research activities and interest	Water and Energy Collaboration Symposium	16 th - 17 th March, 2016 SQU in collaboration with the British Council Oman	National Oral presentation
7	Biofuel As a Renewable Energy Resource	الندوة البيئية حول التنمية المستدامة لاستخدامات الطاقات المتجددة للتخفيف من التغيرات المناخية	Ministry of Environment & Climate affairs 12 th March 2008 Oman	

2.3.2 Professional Events Attended

S.N.	Event	Date and Place	National /International
1	Microorganisms for Bio-Fuel production from sunlight	September 18th –21st, 2011. Bielefeld, Germany	International
2	8 th European Workshop: Biotechnology of Microalgae	June 4 th -5 th , 2010. Nuthetal/ Potsdam, Germany	
3	The GenoBusiness Forum	8 th –9 th May, 2018. PACA, Muscat, Oman Link to Evidence	
4	Participated in a workshop “Renewable Energy in Oman: Current Status and Future Perspectives”	17 th -19 th September, 2017. SQU - Oman	

5	Participated in a workshop “Combating the Emerging Impacts of Harmful Algal Blooms on Desalination Plants”	21 st January 2016. Middle East Desalination Center (MEDRC) - Oman	National
6	Participated in a workshop on “Publishing and Grant Proposal Writing Workshop”	4 th – 5 th October 2015. The Research Council (TRC)- Oman	
7	The Third National Conference on Bio-Safety	September 23 rd – 25 th , 2014. Organized by Ministry of Environment & Climate affairs held in Park Inn Muscat, Oman	
8	International Symposium of Biotechnology and Conservation of Species from Arid Regions,	February 10 th –13 th , 2013. SQU – Oman	
9	Participated in organizing the first international workshop on Al Jebal Al Akhdar “Initiative Conservation and Sustainable Development in a Fragile Arid Mountain Ecosystem”	February 8 th -9 th , 2006. SQU – Oman	
10	International conference on Bio-safety	21 st - 23 st February, 2005. Ministry of Regional Municipalities, Environment & Water Resources – Oman	

2.3.3 Research/Scientific Visits

S.N.	Place	Period	Purpose
1	Durban University of Technology, Durban, South Africa	13 th – 21 st July, 2018	Research collaboration with Prof. Faizal Bux and Ismail Rawat on exploring local algae for high value products.
2	Qatar	28 th of May – 2 nd Jun 2016.	Visited Qatar University ATP center to learn about the “Alga Technology Program” (ATP). Established research collaboration and engaged in a lot of knowledge exchange.
3	Iran	October, 2014	Visited and established a collaboration for joint research with Prof Nisreen Moazami from Iranian Research Organization for Science and Technology (IROST) and Qushim Microalgae Biorefinary (QMAB).

2.4 University/ National Recognition

2.4.1 Invitation as an Examiner for MSc Theses

S.N.	Student	Thesis Title	Date	College/University (Role)
1	Ms. Khadija Said Al Hosni (ID:33374/16)	“Indigenous Lactic Acid Bacteria from Camel Milk: Isolation, Characterization & Application in Dairy Products”	3 June 2018	College of Science Biology Department Member of Thesis Examination Committee

2.4.2 Membership of Registered SQU Research Groups

S.N.	Research Group	Date of Registration	Role
1	Renewable Energy Research Group at SQU	Oct 18 th , 2017	Member

2.4.3 Awards Received

S.N	Awards	Awarding Body	Date	Comments
1	<i>The National Research Award 2018</i>	The Research Council	December 4 th , 2018	For the scientific contribution in the file of renewable energy, namely, leading role in the production of biodiesel from waste date seeds in Oman (Refer to Attachment Sch 2.2.3B)
2	<i>Sultan Qaboos University's award for outstanding scientific contribution locally and internationally 2019</i>	Sultan Qaboos University	May 2 nd , 2019	On the 19th University Day in recognition of winning the L'Oréal-UNESCO award for Woman in Science Middle East Fellowship 2018 for my significant contribution to science & actively promoting it both locally & internationally. Received swiping media coverage locally & globally. (Refer to Attachment Sch 2.2.3E)
3	<i>Al Mar'a Excellence Award - 2019</i>	Apexmedia	March 14 th , 2019	In honor of my contribution to science in the category of Innovation and Technology based on nominations (Refer to Attachment Sch 2.2.3C)
4	<i>Occidental Oman – Gulf Intelligence award</i>	Occidental Oman	October 18 th , 2016	As a young scientists in the field of STEM who promoted postgraduate education in Oman. I was also the only female winner in a field of research where females are reported to be underrepresented worldwide (Refer to Attachment Sch 2.2.3D)

2.5 Leading Scholarly Work

2.5.1 Postgraduate Supervision

S.N.	Student	Thesis Title	Starting Date	Level	Role
1	Ines Barkia	“Production of microalgae-based functional food with antioxidant and antihypertensive properties from Omani waters”	September 2016 (Completed)	PhD	Co-Supervisor
2	Farrukh Jamil	“Volarization of Omani Waste Date pits (Phoenix Dactylifera) Pits for Production of Biofuels”	September 2014 (Completed)	PhD	
3	Mohammed Goma	“Microbial community and isolate based approaches for the production of biofuels and high value products in the Sultanate of Oman”	September 2014 (Completed)	PhD	

2.6 Leadership, Active Role and Impact in Developing Scholarly Work

2.6.1 Active Leadership In Research

S.N.	Activity	Period	Comments
1	Laboratory Establishment	2014-2016	After completing my PhD & returning to an empty lab, I immediately joined an existing research group (2014) & also started applying for my own grants to establish my lab. I managed to secure an IG grant (2016) and also tap into the Deans budget to purchase an algae cultivation equipment that is the one of its kind in the Middle East “ Algem ” with a fund of 28,500 rial on 4 th February 2015 that was later extensively used in algae cultivation research.
2	Creating my first research group: <i>The Algae Biology and Biotechnology Research group</i>	2016-2017	After securing the collaborative grant with South Africa (10k) I attracted external researchers to join me and created a team of 4 assistant professors from College of Science, College of Agriculture and a postdoc from Higher Technical College (HTC) via a 1 year contract to work in my team. We also attracted 4 students to work on the project.
3	Creating my second research group: <i>The Biodiesel Production Research Group</i>	2017-2018	After securing an external grant from PDO (150K) with myself as the PI of the project, I created a team of researchers, attracting a BSc student, 2 volunteers, a post doc and a consultant and a research assistant.
4	Attracting International Talent	2017-2019	Due to the wide discussions of my research on the national news, newspapers & social media platforms and winning the L’Oréal UNESCO award in 2018. Students & researchers from outside Oman were applying to work in my research team. In 2017, I accepted an Omani student from Dublin City University (UK) to join our “ <i>Algae research team</i> ” for 6 months Integrated Training program where she was extensively trained under my direct supervision and her 6 month training was registered as part of her degree in Dublin City University (UK). In 2019, we also hired an Omani honor student from USA (University of Nebraska-Lincoln) who applied to join the “ <i>Biodiesel production group</i> ” and is currently working as a research assistant in my team.
5	Training sessions	2017	Organized training sessions on using high technology instruments for the cultivation and analysis of algae growth for biofuel and high value products production for students inside & outside SQU including students from the Higher Technical College, Caledonian College and a student from college of engineering in SQU.
6	Leading research teams and capacity building	2016-current	In the short span of 4 years, I have established my lab with latest instrumentation, hired 2 post docs from India and Pakistan, an Omani MSc student starting 2020, 3 PhD students, 3 BSc students, 2 Research Assistants, and trained several students from inside and outside Oman.

2.6.2 Scholarly Consultancy

S.N.	Requested body	Period	Comments
1	Japanese company (Euglena)	Started 2016 and ended on 31 st Dec 2018	Provided consultation for a Japanese company (Euglena) on how to start their business in Oman. The several meetings lead to the establishing of a small algae cultivation facility on SQU campus at the SQU Agriculture Experiment Station (AES) that. The consultation & support was provided to Mr Aki Hirayama, Vice Director, Sustainable Green Business Promotion Div, Shimizu Corp. Japan and Mr Sueyoshi Narimi Mark from SQU/College of Engineering.
2	UK based company (Feed Algae)	2016 - 2019	Provided consultation for a UK based company (Feed Algae) by an invitation from the VC office where several meetings were conducted to support algae cultivation initiatives at SQU. I was in contact with the Chief Operating Scientist of Feed Algae Raffael Jovineon for any support. The meetings supported the establishment of a small facility on SQU campus and training of local students. I also took over one of their staff and co-supervised her to complete her PhD in my lab under both my direct supervision and Dr.Fahad Al Zadjali from college of Medicine where we co-published 2 research papers from the joint PhD student.
3	Reviewer for the Egyptian Journal of Aquatic Research	March 26 th , 2017	Invited as a reviewer for a paper entitled “Effect of Spirulina platensis on reproductive performance of Nile Tilapia Oreochromis niloticus” (Ref. No.: EJAR-D-17-00031)

2.6.3 Invitations of experts

Type of Invite	Year / Place
Invited Professor Saul Purton from University College London UCL (UK) to deliver a series of high-level talks on “Algae Biology and Biotechnology” at SQU in support of achieving UCL-SQU research collaboration and in support of the MoU signed between SQU and UCL.	2016 SQU Oman

2.7 Regional / International Recognition

2.7.1 Awards Received

S.N.	Award	Awarding Body	Date	Comments
1	Recipient of the prestigious " <i>L'Oreal UNESCO Award for Woman in Science Middle East Fellowship, 2018</i> "	L'Oréal foundation in association with UNESCO – France	28 th of November 2018	Recognition to significant contribution to Science & actively promoting it both locally & internationally. Received swiping media coverage locally & globally
2	Best Paper Award	Organizing committee of ICREGA'2016 conference Belfort - France	February 8-10 th 2016	Best paper in the 3rd International Conference on Renewable Energy: Generation & Application “ICREGA 2016” conference for research on renewable energy
3	Best paper award	Dubai, UAE	30 th -31 st , December 2016	Best presented paper in the 8 th International Conference on Chemical, Agricultural, Biological and Environmental Sciences (CABES)

4	TEyD; Tell Everyone your Dissertation competition	University College London, UK	2011	Received a monetary prize for winning in the sharing science competition organized by the UCL Public Engagement Unit (Refer to Attachment TL1.4.2A)
5	Best Research Poster Competition	University College London, UK	2011	Received a monetary prize for winning the “Best Research Poster Competition” organized by the graduate school at UCL (Refer to Attachment TL1.4.2A)
6	Strictly Come Science Competition	University College London, UK	2010	Received a monetary prize for winning in the science competition that was part of the Institute of Structural and Molecular Biology symposium for sharing research topics at UCL (Refer to Attachment TL1.4.2A)

3. University and Community Services

3.1 Active Participation in University and Community Services Activities

3.1.1 Organization of Workshops, Mentorship and Training

S.N.	Event	Date	Role
1	“Edlal” an on-line Arabic platform with over 20,000 registered participants	February 2018	Prepared and shared an on-line workshop on the “ <i>Importance of life skills in the 21st century</i> ” for an Arabic educational platform with over 20 thousand users across the Arab world. People who take the course are awarded a certificate. The workshop received numerous positive feedback both locally & Internationally.
2	منافع Oman Animal & Plant Genetic Resource Center (2 day workshop)	23-24 February, 2018	Coached in a 48 hrs ideathon event for 5-7 teams of Omani youth with products that needed development Link to Evidence
3	Environmental Society of Oman (ESO) and Emirates Environmental Group	2016	Actively supervised three students from outside college of science in an international environmental competition.

3.1.2 Participation in Departmental / College / University Committees

S.N.	Committee	Academic Year / Qarar Issue Date	Role	Level

Link to Evidence

3.2.2 National Initiatives

3.2.2.1 High level National Consultancy

S.N.	Inviting Body – Event type	Date	Role
1	National Defense Collage كلية الدفاع الوطني	22 – 27 February 2020	Work closely with military and other government personals for a week on revising and enhancing national strategies for the country before raising them to his majesty the Sultan of Oman. In alignment with Oman vision 2040.

3.2.2.2 Jalsat Mulhmoon جلسات ملهمون (A Personal Original Initiative)

Jalsat Mulhmoon, is an original and personal initiative that I have created & launched purely for community service and specifically for the Arab youth. The initiative is based on offering inspiring motivational and learning sessions to the youth and the initiative is driven by myself and is run with a voluntary qualified team of 20 Omani youth.

The aim of these sessions are to host high achieving, young, and successful figures from around the Arab world to share their outstanding and fruitful experience in achieving success. The youth-to-youth sessions are well-developed to be a unique platform for interesting conversations and positive thoughts. By doing so, the sessions not only inspire young people to achieve their goals in life, but also to make them share their success stories with others. Organizing a session per semester, *Jalsat Mulhmoon* aims to reach as large as possible number of students especially those who are in the beginning of their academic life or about to start their careers.

Initiative objectives include: Presenting successful Arab youth models to the Omani youth, inspiring and encouraging young people to set goals and work towards achieving them, making youth fully aware of finding alternatives and turning challenges into opportunities, contributing in creating open minded youth guiding them to the road of success.

First Session: Took place on the 7th of November, 2018 hosting Lubna al Khamis from Saudi Arabia who is the founder of Abajoura podcast, was extremely well received and attended with an audience of over 700 people which is beyond the maximum capacity for the Conference Hall at SQU.

Second Session: Took place in the Roman theatre at GUtech on the 10th of April, 2019 witnessed a high presence of about 500 people. The guest of this distinguished session was Mufeed al Nuwaiser, the Saudi media specialist and the host of “Min al Sufer” program aired on MBC. Attracting a significant segment of youth, the #Jalsat_Mulhmoon hashtag was a trend on twitter the day of this session. The two previous

sessions saw attendance of high-ranked, academic and media specialist figures, along with prominent influencers in social media specialized in different areas.

*Attached are photos from previous sessions and examples for the audience feedback on the social media.

The next session taking place on the 28th of October 2019 with 4 renowned scientist from the Gulf is booked to take place in the Cultural Hall at SQU under the patronage SQU VC, HE Dr.Ali Bimani and an expected audience of 3000 youth from across the country.
